SAMSUNG

H105 Compact Full HD Camcorder

CAMERA FEATURES

2.7" Touchscreen LCD viewfinder

4.7M pixel still (2880 x 1620)

SD high capacity memory card slot: The memory camcorder's external memory slot accepts both SD cards and MMC. Quickly and easily transfer and play videos, images, music and documents using the memory type of your choice.

32GB Flash memory (SSD)

HDMI (High-Definition Multimedia Interface) transfers hi-definition (1080i/720p) video and audio from your Camcorder to your TV, Home Theater, or other digital AV components. Simply connect your Camcorder to your Home Theater System with a single cable for the high quality pictures and sound.

SSD (Solid State Drive)

- A data storage device that uses solid-state memory to store data forever.
- Superior to Hard Drive Camcorders in speed, security, size, reliability, power consumption and noise emission.
- With no moving parts, solid-state drives are silent & inherently less fragile than Hard Drives.
